

Mid-Week Mixed League Proposal 2020

The S&D Committee consider the current Mid-Week Mixed League season is too long.

This season teams played each other home and away and the current Division 1 season lasts for 16 weeks.

The proposal is that the leagues are enlarged, and teams play each other only once.

This will slightly reduce the number of matches in each division.

The 2019 league structure and the proposed league structure for 2020 are shown below:
